

## SUPER NEPTUNIA RPG ARRIVES ON THE PS4 & SWITCH IN SPRING 2019!

LOS ANGELES, CA., August 16, 2018 – 2D or not 2D? That is the question.

*Super Neptunia RPG* will be available for the PlayStation®4 and Nintendo Switch™ both physically and digitally in North America and Europe in Spring 2019.

Developed by Artisan Studios in Canada, this game brings the characters of the self-referential *Neptunia* series to life in a whole new way. Each character was hand-drawn by Tsunako, the artist behind the series, then animated by computer magic to create a world that's mysteriously gone from three dimensions to two. Explore side-scrolling dungeons and fight in turn-based battles to settle the debate once and for all – which games are better: 2D or 3D!

### Story

Neptune, our protagonist, wakes in a familiar land but has no recollection of anything other than her name. With the help of a mysterious girl named Chrome, Neptune embarks on a journey to regain her memories, along with three other familiar faces from the *Neptunia* series.

Soon they realize that the world is under attack by an enemy who wants to take civilization back to the time where 2D games ruled the market.

Can they save the world and 3D games as we know it, or will they be flattened into two dimensions forever?

\*Japanese Screenshots not final
